- Base

**Product advantage**

**Compact smart girl**

The DENEb Series 71980 is designed to be easily transported to where it is needed. It is designed for home maintenance and easy storage.

**Convenient and secure transfer**

The patient lift range of 0 to 161 cm (0"-63.4") provides an excellent maximum lift height and at the same time goes very low, making lifting from the floor easier. The standard 4-point suspension Sling provides a comfortable and spacious lifting position for the user.

**Line selection**
