product advantage

Patient Elevator (Hoyer Elevator) Features:

- The lift features a range of 20"-64" and allows people to be lifted from a lying position on the floor
- Pump Handle: Able to swivel from side to side for caregiver comfort. How many times can it be used?
- Tips: It is highly recommended that patients be assisted by two people while lifting.
- Easy assembly, it only takes you 2 minutes to assemble the lifts.

Lift Size Choose

Sling Features:

Easy to Use - The sling helps transfer users from a bed to a wheelchair, recliner, or shower chair. The large opening in the design also allows you to go to the bathroom.

Maintenance (easy to clean): Washable polyester fabric can be used in wet or dry environments.

Multiple Use: Ideal for transferring a patient from bed to chair, wheelchair or commode, chair to chair or from floor to bed or chair using your manual or electric lift.
