

Detailed Description:

Ultra compact design makes it extremely portable.
Powerful filter pump is efficient, dependable and quiet.
Delivers consistent particle size of 55 microns and fast treatment times.

Suitable for A Variety of Situations

PORTABLE COMPRESSOR NEBULIZER

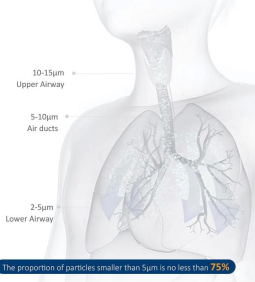

Penetrate into Bronchus & Lung 2-5 μm

Adults & Children

MICRON NEBULIZATION FINE PARTICLES

MMAD: 3.6 - 4.0 μm

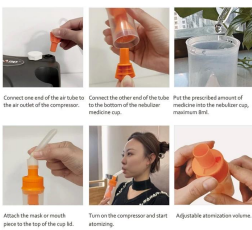

QUIET ENVIRONMENT SILENT ATOMIZATION

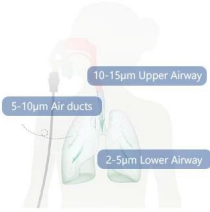

Low noise design, easy for children to sleep

USE BASIC STEPS

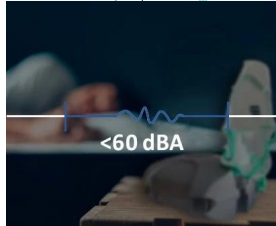

More Details

Micro level subulization—2µm-5µm
Micro level particles directly reach the upper respiratory tract, trachea, alveoli and lower respiratory tract, making it easier to absorb the medication.

High atomization efficiency
Smooth atomization for continuous operation.

Low noise design
As proven, low vibration, baby atomization does not result.
